<b>3. Sharing group-work with all &amp; next steps</b>	Moderation by Louis? (TWG FM Chair / Recoolit)
<b>3. Closing remarks, next meeting</b>	Malin Emmerich (GIZ Proklima)

## SESSION OBJECTIVE & GOAL

"COPA is currently soliciting demonstration projects, which will be funded out of [description of the funding pool]. The purpose of these demonstrations is to continue onwards into larger projects, which will require additional funding. Therefore, through the selection criteria for these COPA pilot projects developers must consider the potential funding sources for the project after the pilot phase ends for a sustainable solution and full deployment; and the extent to which the pilot/proposal is likely to attract various funding sources. The goal for this session is to inform those selection criteria."

- Beyond project thinking, role of COPA and project developer for sustainable solutions.
- How should COPA evaluate project proposals, based on this?
- Think big. Go big. Driving a transition.

### 3. Discussions and brainstorming in Break-out rooms

## BRAINSTORMING IN BREAK-OUT GROUPS

Guiding questions:

- a. which project types are most appropriate for which kind of funding?
- b. what makes a project "bankable" for each financing mechanism?
- c. how can you tell whether a pilot will lead to a bankable project during project submission?
- d. how do these project types compare in terms of potential for impact and funding requirements?
- e. if you had \$XXX to spend on achieving maximum impact, how would you spend it?

### 3. Closing remarks & next steps: meetings and activities

## ACTIVITIES & NEXT MEETINGS

- **November 2023**
  - ✓ COPA EU Study Tour
  - ✓ MOP35 in Nairobi
  - ✓ COP28 in UAE

**TWG FM #4 : Next steps? Next meeting?**

**THANK YOU FOR YOUR PARTICIPATION**
